

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 3/31/2010 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609. The statement is not compliant with 37 CFR 1.98(a)(1), (i) through (iii); requiring, *inter alia*, a column providing a space, next to each document to be considered, for the examiner's initials.

However, to advance prosecution, Examiner has considered the EPO communication submitted 3/31/2010.

The following is an examiner's statement of reasons for allowance:

The closest prior art, Binkley, US Publication No.: 2003/0060270, does not disclose or render obvious a rear-mounted support stand with each revenue acceptor simultaneously accessible with the front of the display housing at all times, the display housing having a permanently fixed orientation with respect to the rear-mounted support stand, in combination with the other claimed limitations. Applicant has amended the claims to require these elements, as suggested by Examiner in the Office action dated 8/18/2009. Hence, Examiner believes the claimed invention is allowable. Accordingly, Claims 8-13 & 17-23 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
